**ORDERS.**—All orders should be written plainly, one item to the line, stating page, cut number and quantity desired (do not mutilate Catalogue by cutting).

Prices subject to change without notice.

**PACKING.**—All goods are eased or packed carefully with strips or crated, and, where feasible, parts of forms separated so as to secure best transportation rates.

**SHIPPING.**—We ship all orders under 50 lbs. by express, unless otherwise ordered. Large shipments by freight, and our responsibility ceases when goods are accepted by carrier. Claims for shortage, etc., must be made immediately on receipt of goods.

**TERMS.**—All accounts are due when goods are received. Remittance should be made by check or draft payable at New York.

Mail us a list of goods you wish to purchase, stating dimensions of show-windows and shelving, and we will quote lowest net price for the outfit.

11-5-11

his Catalogue we place before you is one we have issued with great care and years of study. We have made it as intelligent and comprehensive to the reader as is possible, and without any trouble the selection of a line can be made in a very short time. Every merchant sees the necessity of window and interior displays, whereby the goods he handles are most conspicuously brought to the attention of the public. Without an artistically decorated show-window this point cannot be gained.

Being the oldest house, in fact, the pioneers of this line, with the numerous branches we control, we are able to supply the trade with Novelties and articles of first-class quality, and at prices moderately low. Through years of personal experience we have brought this line of business to such a high standard that we are universally acknowledged the leaders.

We do not wish to bear out any selfishness to this claim, but satisfy ourselves by controlling all articles of valuable importance and mechanical ingenuity by United States patents. A certain feature which has brought this line of business so prominent before the trade is,

**We make personal endeavors to study the wants of the trade.**

The numerous new designs which we are constantly adding to our well-assorted stock necessitate the laying aside of some of the old patterns. These are, in time, snapped up by other concerns, and we justly remark that the goods manufactured by outsiders are old design models which we discarded some ten or fifteen years ago.

By persistent and continued efforts we have accomplished more than any house in the trade, in elevating window decorations and displays to their present high standard of excellence.

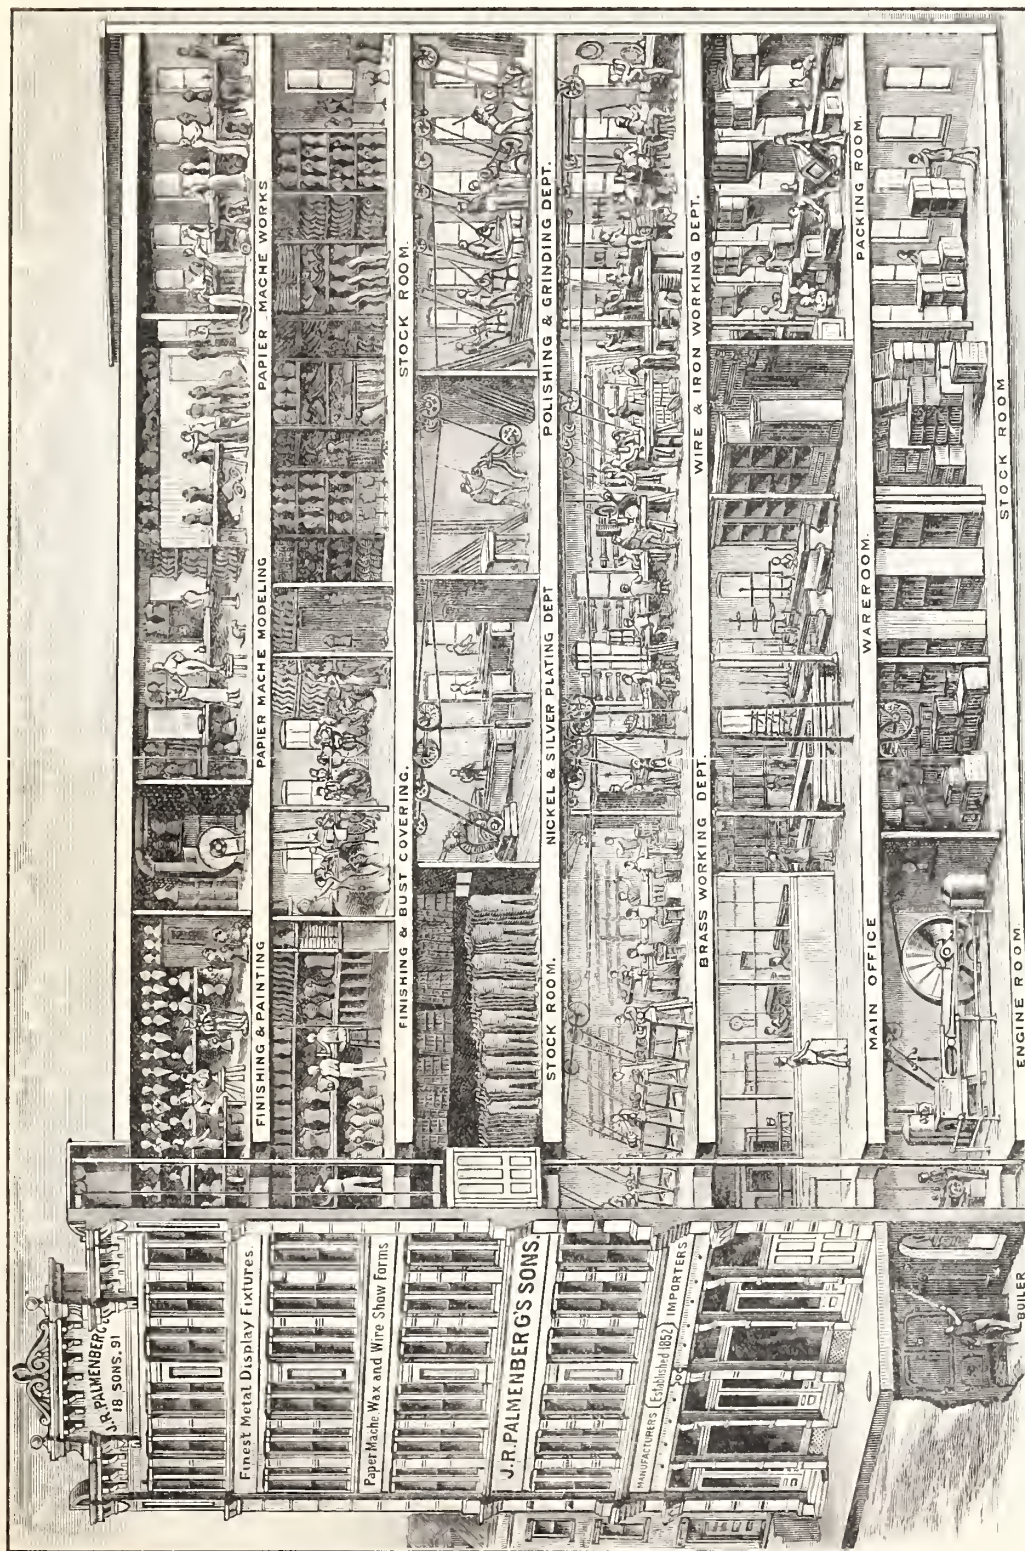

**THE GENUINE ARTICLE IS ALWAYS SUPERIOR TO THE BEST COUNTERFEIT.**

**W**E occupy our own Factory Building, 50 x 109 feet, at 89 and 91 West Third Street, where we have 30,000 square feet of space at our command; all floors being laid out and supplied with most improved machinery.

Our facilities for manufacturing and filling orders promptly are unlimited.

A complete line of all our goods are shown at our Sales-rooms, No. 713 Broadway; a location convenient for the trade.

This illustration represents in detail the interior of our Works at 89 and 91 West Third Street, showing the process of manufacturing the goods shown in this Catalogue.

## Dry Goods Displayers.

**No dealer in dry goods should be without them.**

They are the most useful articles ever offered for exhibiting their goods.

Just the thing to set at the door and attract the attention of the passers-by. Best thing you can get to show off the goods in your store.

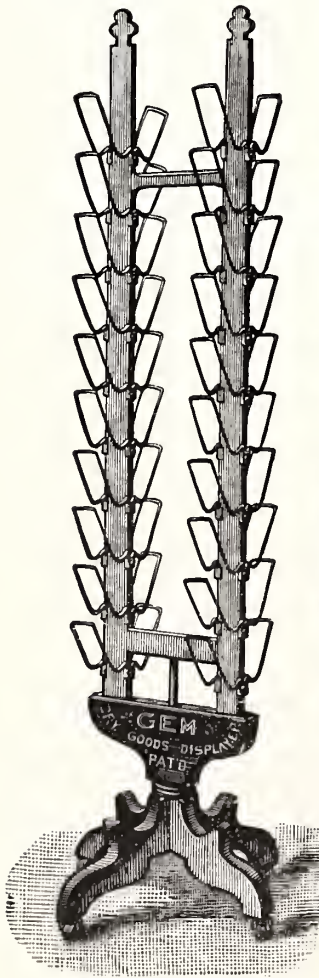

It will save the appearance of the goods, because they are not handled so much.

Either full or broken pieces show up equally well.

They are all made of thoroughly seasoned hard wood, natural finish, with two coats of varnish, and with bright metal hooks that will not rust.

The cuts used in this Catalogue were made from actual photographs taken, and give a clear idea of the appearance of goods when on the Displayers.

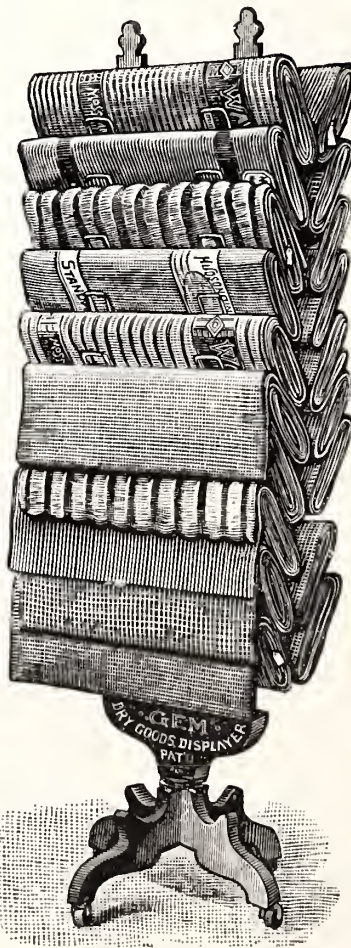

Valuable for showing dress goods, gingham, prints, lawns, silks and all other kinds of goods, in single or double folds.

No. 111.

Entire height, 6 ft. 4 ins.

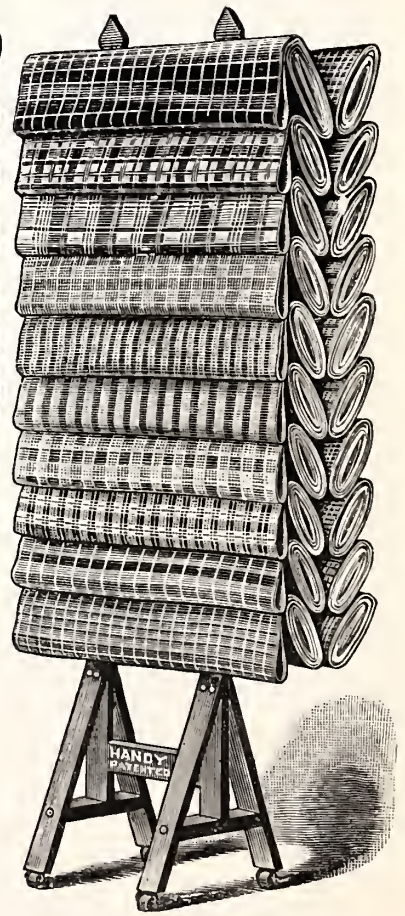

Price \$7.00.

No. 111a.

Entire height, 6 ft. 4 ins.

Price \$7.00.

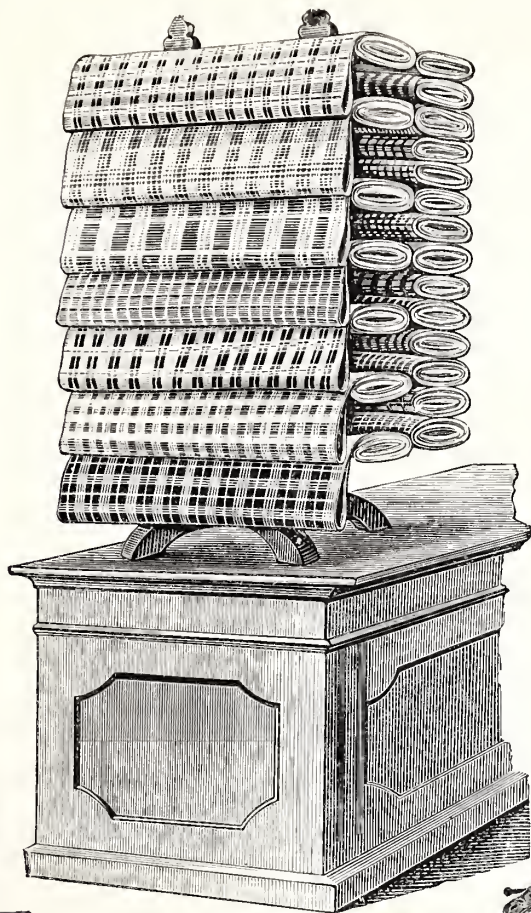

No. 111b.

Entire height, 6 ft. 2 ins.

Price \$5.00.

You will be surprised to see how much prettier goods look when tastily arranged on these Displayers. By contrasting the colors and patterns sharply a very attractive display can be made.

No. 112a.  
Stand in use.

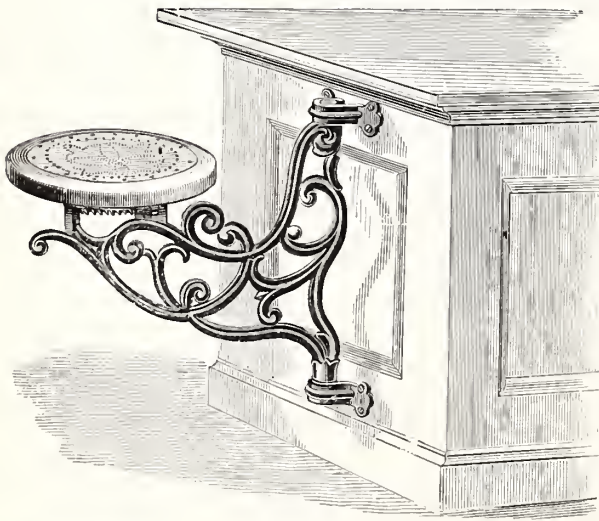

No. 115.

Adjustable Swinging Bracket, to be fastened to any mirror, nickel-plated arms, \$7.50 each.

## Store Stools, Latest Designs.

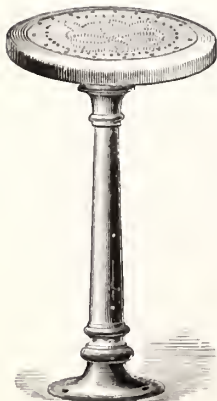

Patent Folding Bracket Counter Seat, projects fifteen inches from the face of counter to the center of seat.

Price \$33.00 per dozen.

This Folding Bracket Seat has become so well known to the trade that a description is unnecessary. The breadth of panel in counter, represented in the cut, is fourteen inches, and the spread between the upper and lower box or hinge of bracket is sixteen inches. It is adapted to any counter of ordinary construction with a closed front, is easily put up, and for beauty and utility surpasses all other seats ever invented. It is made to fold up close to the counter so it may easily swing out of the way when not in use. Always ready for use, and yet out of the way for sweeping and scrubbing.

No. 116.

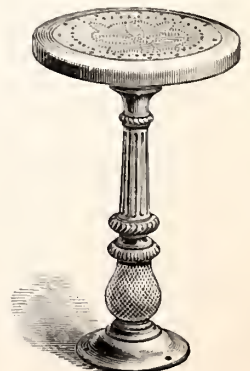

No. 116a.

No. 116a. Strongly made Store Stool.

21 inches high.....	Price \$21.00 per dozen.
23 " " .....	24.00 "

No. 116b. Fancy Pedestal Store Stool.

Made only 21 inches high:.....Price \$27.00 per dozen.

No. 116b.

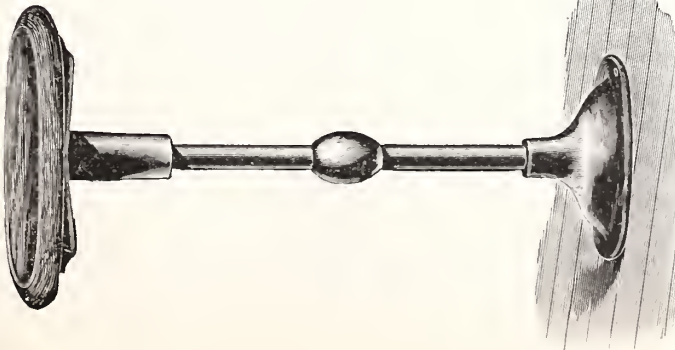

The seats of these stools are perforated, natural color finish, with white birch, cherry-red, or imitation mahogany rim.

# STORE STOOLS.

We have added to our large assortment of goods a line of Store Stools, which for durability, neatness and low prices are unequalled.

The pedestal is composed of a Chilled Iron Base and a Solid Rolled Steel Shaft. The bearings are machine-worked, giving the most perfect action, and a free, regular and noiseless revolving top. The construction of the Stool is simple and strong. The pedestal is light and graceful, being an entirely new departure from the bulky, dust-catching, cast-iron pedestals now in the market.

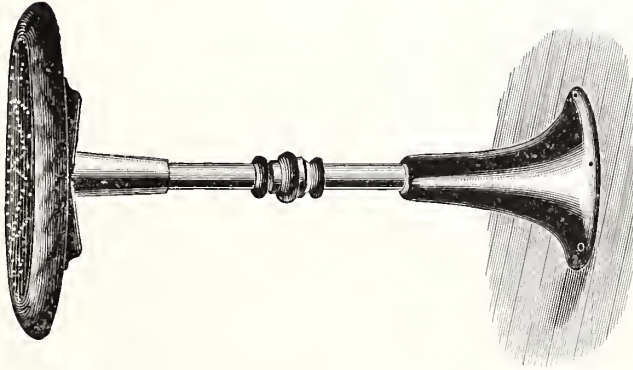

The seats are made of hard wood, either solid or perforated, will outwear any kind of upholstered seats, and are always clean and free from dust.

No. 116 C.

Pedestals japanned. Solid hard wood seat finished in oak. 21½ inches high. A first-class stool in every respect.

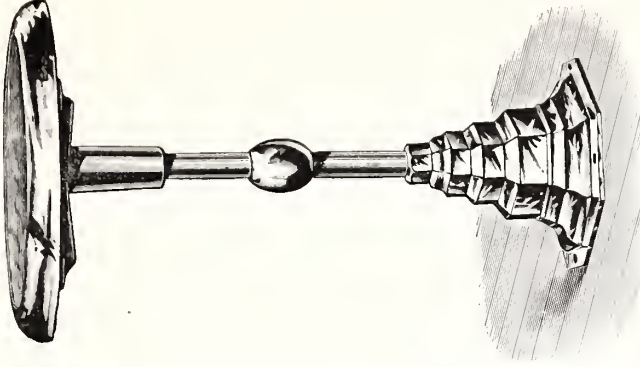

PRICE \$18.00 PER DOZEN.

No. 116 D.

Pedestals japanned, wood rim and 3-ply perforated seats, oak finished. 21½ inches high.

PRICE \$24.00 PER DOZEN.

No. 116 E.

Pedestals japanned, solid oak seats, rim nickel-plated. 21½ inches high.

PRICE \$33.00 PER DOZEN.

We carry a large quantity of the above Stools in stock and can execute orders on short notice. These Stools are also furnished with cherry, walnut or mahogany seats, but require more time to fill an order.

## Handsome Wax Forms for Milliners or Hair Goods Dealers.

No. 117.

Finest quality. Price \$90.00.

On the following pages we give illustrations of some of our *finest* grade Wax Figures. The heads are modeled from life by a famous artist, and are the finest in this line ever produced. The wax is so prepared that it will not melt, or be affected by change of climate.

The hair used is the best human hair, full lengths, and each hair is implanted separately, making form true to life.

They are not put on the market as a cheap wax form, but for durability, artistic finish and attractiveness they are by far the cheapest form in the long run.

Hanging Handkerchief Holder.

No. 217a.

Handkerchief Stand.

Why string handkerchiefs on a line when they can be bunched together and artistic effects produced?  
This holder is made of oxidized silver or lacquered gilt. It is 9 inches in diameter, and will hold several dozen handkerchiefs. The entire assortment can be examined quickly, and any one handkerchief removed without disturbing the remainder.

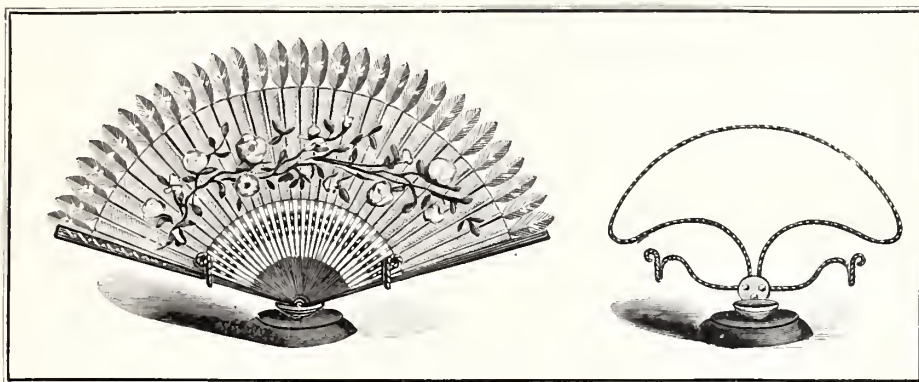

Oxidized.....	Price \$1.00 each
Lacquered gilt.....	" .85 "

This holder is highly ornamental, and affords the merchant a means of displaying handkerchief stock to advantage on the counter. It is made of oxidized silver or lacquered brass. The standard is 35 inches high, and jointed to facilitate packing. The base is solid. The upper ring is 6 inches in diameter, the lower ring 9 inches, and together will hold about 30 dozen handkerchiefs, any one of which can be removed without interfering with the others.

Oxidized silver.....	Price \$3.00 each
Lacquered gilt.....	" 2.75 "

# The Raymond Perfected Bracket.

(Patented February 12th, 1889.)

Section of the Raymond Bracket one-third size,  
(Patented February 12th, 1889.)

Newest and best Ratchet Bracket  
yet introduced.

Elevating or lowering is so simple that **very little explanation is required.**

Press or pull bracket from upright **and set at angle desired.**

**Slides clasp on upright standards.**

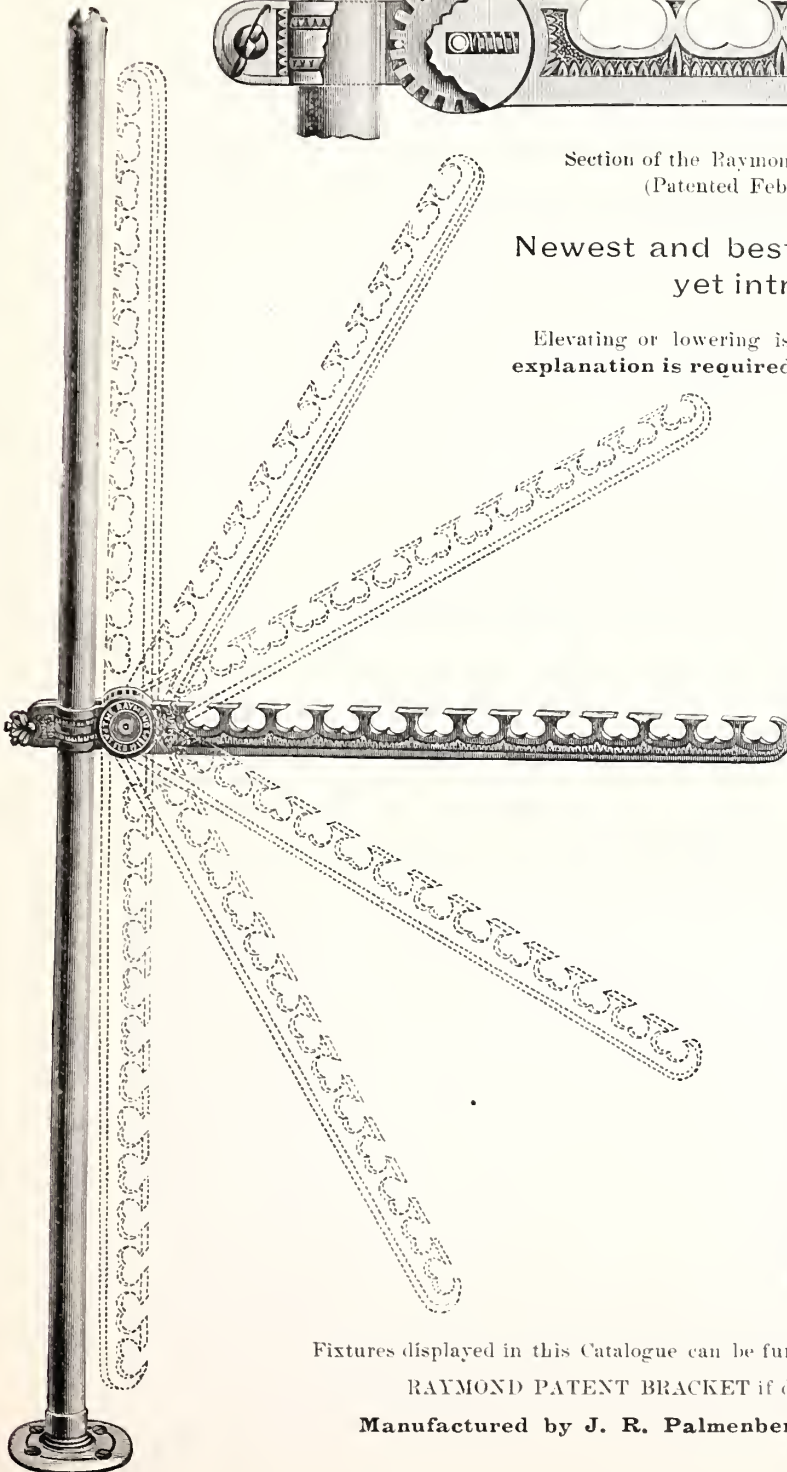

The Raymond Bracket and Slides are furnished to fit  $\frac{3}{4}$ ,  $\frac{7}{8}$  and 1-inch standards. We will supply them to take the place of Saw Brackets with set screw.

Slides furnished as follows :

1. Single, with bracket projecting one way only, dressing front or back of standards.
2. Double, with brackets projecting front and back for deep window dressing.
3. Angle, with brackets projecting at right angles, for front and side window dressing.
4. Double angle, with brackets projecting to the front, side and back, for deep and side window dressing.

Fixtures displayed in this Catalogue can be furnished with the  
RAYMOND PATENT BRACKET if desired.

**Manufactured by J. R. Palmenberg's Sons.**

## Latest Style Patent Hat and Coat Racks

for Restaurants, Bar and Billiard-rooms, Offices, and Halls of Private Dwellings. These racks are made of polished brass or nickel-plated, and are attached to either black walnut, ash, cherry, or ebonized wood backs. These racks are used in leading Restaurants and Saloons, and give entire satisfaction. They are practical and ornamental in design.

When a hat or coat is placed on hooks, will not slip or fall off, as is the case with the ordinary small hooks.

# PATENT TRIPLE-CHEVAL MIRROR,

*Patented September 10th, 1889.*

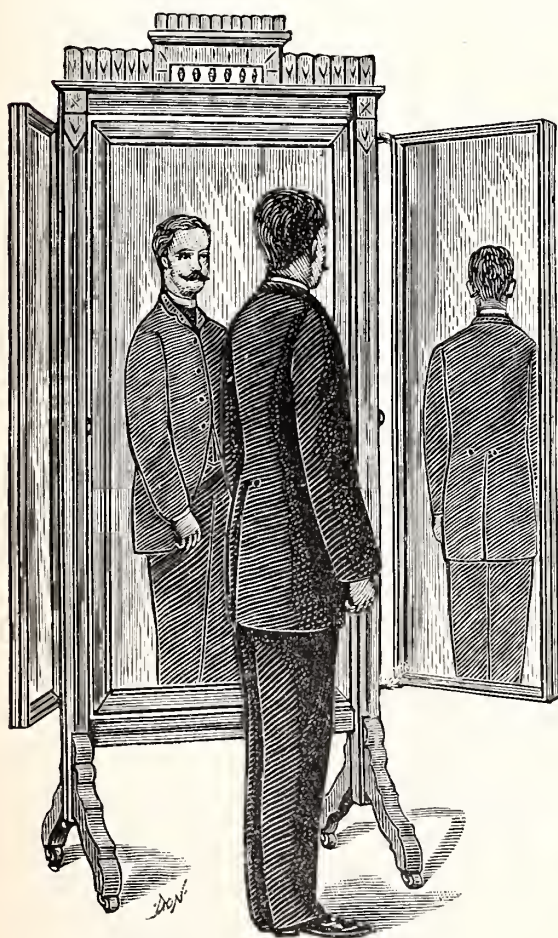

These Mirrors are manufactured by us expressly for *Clothiers, Merchant Tailors, Dress Makers, Cloak and Suit Makers, and Milliners*, and we claim them to be the very best Mirrors ever introduced for their use. One that will show you how the back of a garment sets without turning the head around and looking over the shoulder.

It is also a Mirror for the centre of a room—when closed, forming a Double-Faced Cheval, and used both sides at the same time.

Side Mirrors are hung with Self-Adjusting Hinge, finding its own position to cast the proper reflection, and holding it there. When closed, the Side Mirrors swing to the back and come together, forming Mirrors entire width of Cheval, the hinge holding them together. Pronounced by all who have examined it the best thing of its kind ever made.

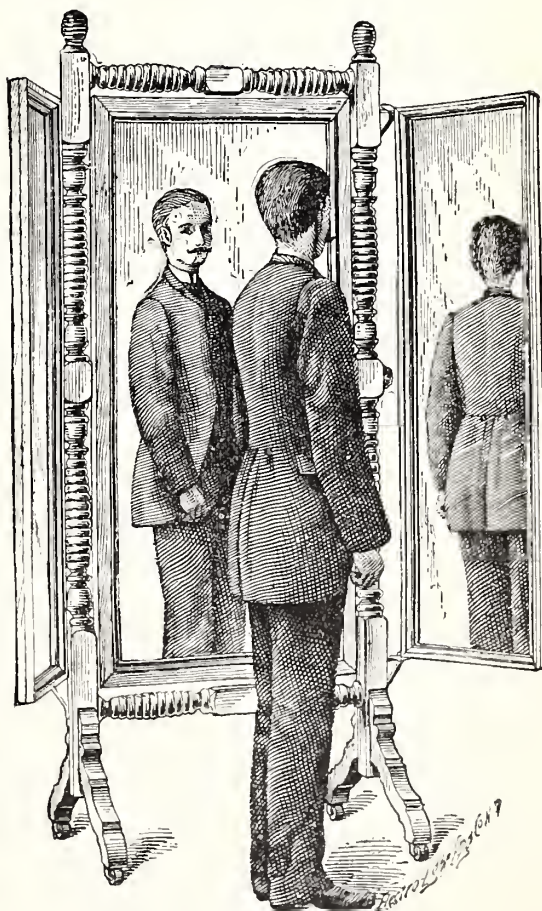

We furnish same Mirror without frame or legs, to fasten against wall.

Made in hard wood—either Oak, Black Walnut or Cherry. Mirrors are made of French Plate, either plain or beveled edges.

No. 114.

Centre Plate, 54x26. Side Plate, 54x16.

No. 114a.

# NEW ADJUSTABLE

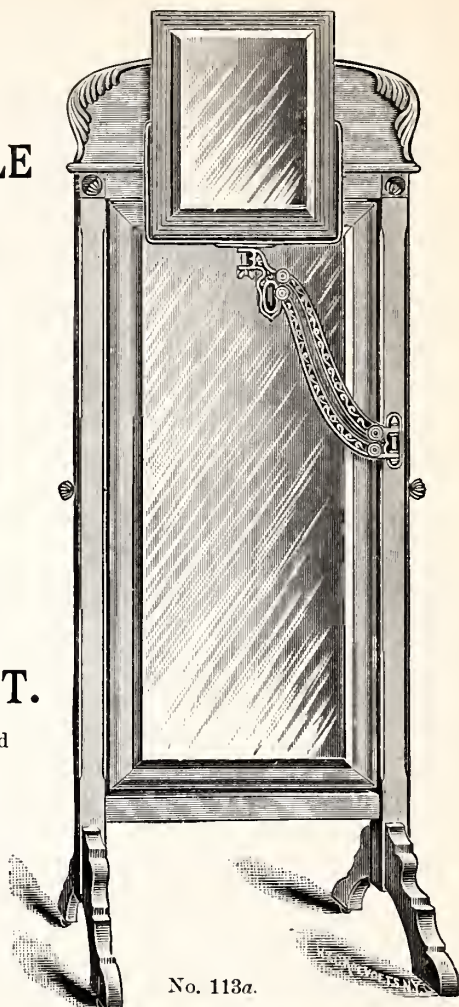

# MIRROR BRACKET.

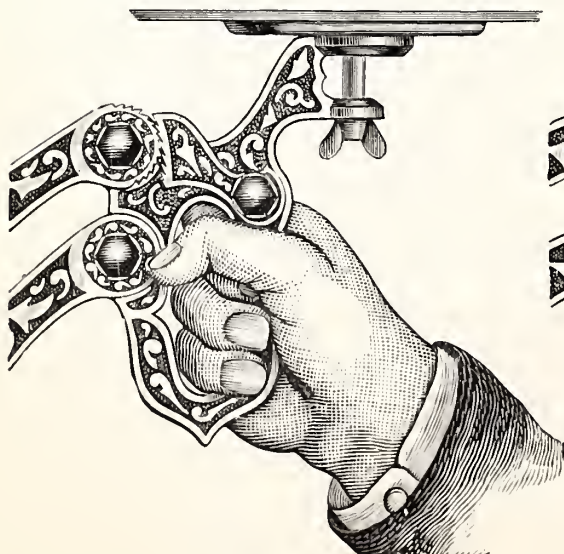

For description and  
prices  
see opposite page.

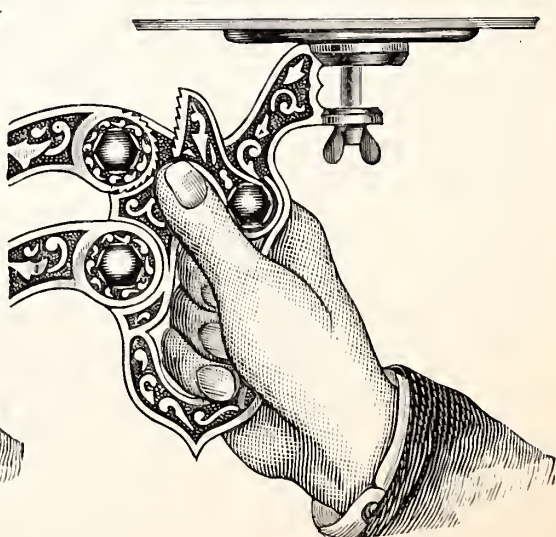

No. 113.

No. 113a.

No. 113b.

No. 113c.

## This New Adjustable Mirror Bracket

## Beats Anything Yet Made

For usefulness, simplicity and cost, and our new design Cheval  
Mirror, to which this Bracket is attached, is the  
largest and best finished Bevel Plate  
Cheval in the market.

Made in Antique Oak, Bevel Plate, 24 inches in width, 50 inches high,  
with panel back polished to match frame.

## Description of New Adjustable Mirror Bracket.

These Adjustable Brackets are made in ebony and gilt or nickel-plated, fitted with antique oak frame and polished back, **WITH BEVEL PLATE 16 INCHES WIDE, 20 INCHES LONG**, and can be adjusted to any angle. Order one and be convinced of these facts.

No. 113 represents Cheval with Adjustable Mirror attached, ready for use, in which a fine view of the back is obtained WITHOUT turning the head.

No. 113a represents Mirror and ATTACHMENT RAISED, leaving full view of the large plate.

No. 113*b* shows the position of the hand in LIFTING the attachment to any required height. **Allow the Ratchet to work free and adjust itself.**

No. 113c shows the hand in LOWERING MIRROR, by placing the thumb underneath the Ratchet. First lift the Mirror up until the Ratchets become separated, holding the weight of small mirror in the hand. Then lift the Ratchet with the thumb, as here shown, and lower to height required. Then remove the thumb and allow the Ratchet to drop, and Mirror will remain in that position.

These Brackets can be attached to any Cheval or Dressing Case, and adjusted as required.

In attaching Bracket to any other mirror have bottom screw in plate which screws to the frame, and to which this Bracket is attached, 48 inches from the floor.

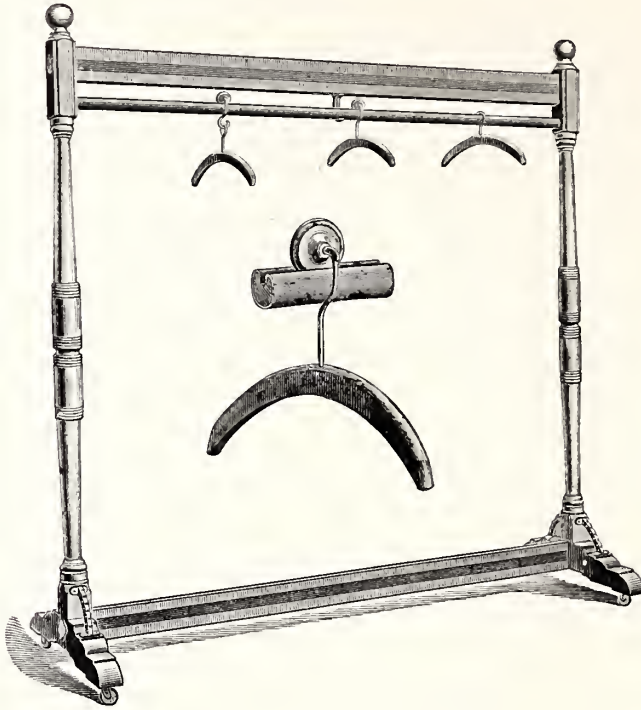

Read these prices and be convinced that seeing is believing.

# Roller Racks and Roller Shoulders.

PATENTED FEB. 23, 1893.

These Roller Racks and Roller Shoulders we confidently offer as superior to any others in the market, and at prices reasonably low. They are indispensable for Plush and other garments. The rollers keep the garments equally spaced apart, preventing the collars from rubbing together.

The grooved rail in which the rollers slide is of hard wood, covered with heavy, polished brass.

Shoulders are of hard, polished wood, with hard wood roller. By means of the separate roller eyes, shown in the cut, ordinary Cloak shoulders may be used with these racks. We furnish the grooved rail and attachments separate to parties wishing to alter the old style of racks.
